When work is suspended for any one of the causes itemized above, or for any other cause or causes, the contractor shall discontinue the work or such part thereof as the owner shall designate, whereupon the surety may, at its option, assume the contract or that portion thereof which the owner has ordered the contractor to discontinue and may perform the same or may, with the written consent of the Engineer, approved by the Board, sublet the work or portion of the work so taken over; provided, however, that the surety shall exercise its option, if at all, within two (2) weeks after the written notice to discontinue work has been served upon the contractor and upon the surety or its authorized agent. The expense so charged shall be deducted by the owner out of such monies as may be due or may at any time thereafter become due the contractor under and by virtue of the contract or any part thereof. The owner shall not be required to obtain the lowest bid for the work of completing the contract but the expense to be deducted shall be the actual cost of such work. In case such expense is less than the sum which would have been payable under the contract, if the same had been completed by the contractor, the balance shall operate as liquidated damages, as hereinabove set out. In case such expense shall exceed the amount which would have been payable under the contract, if the same had been completed by the contractor then the contractor and his surety shall pay the amount of such excess to the owner on notice from the owner of the excess so due. When any particular part of the work is being carried on by the owner by contract or otherwise under the provisions of this section, the contractor shall continue the remainder of the work in conformity with the terms of the contract and in such manner as in no wise to hinder or interfere with the performance of workmen employed as above provided by the owner.

The payment of any current or partial estimate prior to final acceptance of the work by the owner shall in no way constitute an acknowledgement of the acceptance of the work nor in any way prejudice or affect the obligation of the contractor to repair, correct, renew, or replace at his expense any defects or imperfections in the construction of the work under the contract and its appurtenances nor any damage due to or attributed to such defects, which defects, imperfections or damage shall have been discovered on or before the final inspection and acceptance of the work.
