

## Instructions for Permit Application for Development on Lands Located Within Designated Floodplain Areas

To comply with the **Kingfisher County** Floodplain Regulations and to minimize potential flood damage, if you are building within an identified flood hazard area, you must agree to construct your proposed development in accordance with the following provisions:

1. For **ALL STRUCTURES**, the foundation and the materials used must be constructed to withstand the pressures, velocities, impact, and uplift forces associated with the 1% Chance flood. A completed **FEMA Elevation Certificate (form 086-0-33)** must accompany this application, signed by a licensed Surveyor or Engineer.
2. All **UTILITY** supply lines, outlets switches, and equipment must be installed so as to minimize damage from potential flooding and meet FEMA – *Protecting Buildings and Utilities from Flood Damage Instruction - 348*.
3. You must submit **CERTIFICATION FROM A LICENSED ENGINEER** of the flood protection requirements which will be used to meet FEMA 348 standards. Additionally, a written **CERTIFICATION FROM A LICENSED ENGINEER** stating flood-proofing measures “As-Built” have been completed. Failure to provide the required certification is a violation of this permit.
4. **Other provisions** – See attached list Instructions for Oil/Gas Floodplain Development
5. Penalties for Noncompliance of County Ordinance and instruction are found in ARTICLE VI, paragraph 1:

No Structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the terms of these regulations and other applicable regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in Article V, Section D.1 is presumed to be in violation until such time as that documentation is provided. Violation of the provisions of these regulations by failure to comply with any of their requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a Misdemeanor. Any person who violates these regulations or fails to comply with any of their requirements shall upon conviction thereof be fined not more than \$500.00 or imprisoned for not more than one year or both, for each violation, and in addition shall pay all costs and expenses involved in the case. Nothing herein contained shall prevent the Kingfisher County Floodplain Board, District Attorney, or Board of County Commissioners from taking such other lawful action as is necessary to prevent or remedy any violation.

6. The Developer/owner is required to remove and/or dispose of accumulated or piled debris, construction materials, and/or trash from the floodplain area during development and after development is complete to prevent floating debris downstream.

7. Fee paid with application. As of **October 7, 2015** the Fees for Kingfisher County are as follows:

- |   |       |
|---|-------|
| a. Residential/Commercial Development         | \$100 |
| b. Farm/Agriculture Development               | \$50  |
| c. Powerline Development                      | \$300 |
| d. Wind Tower Development                     | \$500 |
| e. Drilling Pad Location/Pipeline Development | \$500 |

payable to **Kingfisher County Floodplain.**

**AUTHORIZATION:**

I have read or had explained to me and understand the above special provisions for floodplain development. Authorization is hereby granted the permitting authority and their agents or designees, singularly or jointly, to enter upon the property described on the application during daylight hours for the purpose of making inspections or for any reason consistent with the issuing authority's floodplain management regulation. I understand that County Ordinance requires compliance and that failure to do so shall constitute a Misdemeanor. I further verify that the information provided by me on the application is true and accurate to the best of my knowledge and belief.

### FLOODPLAIN PERMIT APPLICATION

For Proposed Development on Lands Located within the Floodplains of Unincorporated Kingfisher County

Date \_\_\_\_\_ Phone Number \_\_\_\_\_ Fax \_\_\_\_\_

Applicant \_\_\_\_\_

Mailing Address \_\_\_\_\_

Address/Location/Legal Description of permit site: \_\_\_\_\_

Applicant Requests To:

- Construct     Construct Addition     Remodel     Elevate     Demolish  
 Place Manufactured Housing     Burial, Pipeline or Cable     Drill     Mine  
 Add Fill     Storage (Equipment or Supplies)     Excavate     Other

List Type and Purpose of Development \_\_\_\_\_

Is site to be located in an identified Special Flood Hazard Area (Regulatory Floodplain)?

Yes                                       No

If yes, complete the following:

Engineer \_\_\_\_\_ Contractor \_\_\_\_\_

Base Flood Elevation \_\_\_\_\_ Natural Elevation of Site \_\_\_\_\_

Proposed Built Pad Elevation \_\_\_\_\_

Name of Community UNINCORPORATED KINGFISHER COUNTY    NFIP Community Number 400471

Flood Map Effective Date August 19, 2010

Flood Zone Type:  AE     A     B     C     X     Other

Community Panel Number \_\_\_\_\_

Is site to be located in an identified floodway?  Yes     No

If yes, you must demonstrate through an engineering study that there will be no increase in flood heights during the discharge of the 1% Chance flood caused by your development.

Plans, specifications, and application for permit filed by the applicant shall constitute by reference a part of this permit.

Signature of Applicant \_\_\_\_\_ Date \_\_\_\_\_

Office Use Only:

Permit Fee \_\_\_\_\_ Has permit fee been collected?     Yes     No

Approved By \_\_\_\_\_ Permit Number \_\_\_\_\_
